

Navy Expeditionary Combat Command

Executing Navy's
Maritime Strategy

Presented to
The Honorable Robert Wittman
17 December 2013

THIS BRIEF CLASSIFIED:
UNCLASS / [REDACTED]

Navy Expeditionary Combat Command

Coastal Riverine

Explosive
Ordnance Disposal

Naval Construction
(Seabees)

Navy Expeditionary Combat Command Mission:

Organize, man, train, equip, and sustain NECC forces to execute combat, combat support and combat service support missions across the spectrum of joint, combined, and multinational operations in green and brown water environments to include confronting irregular challenges in the near-coast, inshore, and riparian environments to include irregular warfare and other shaping missions that secure strategic access from the sea and global freedom of action.

NECC at a Glance

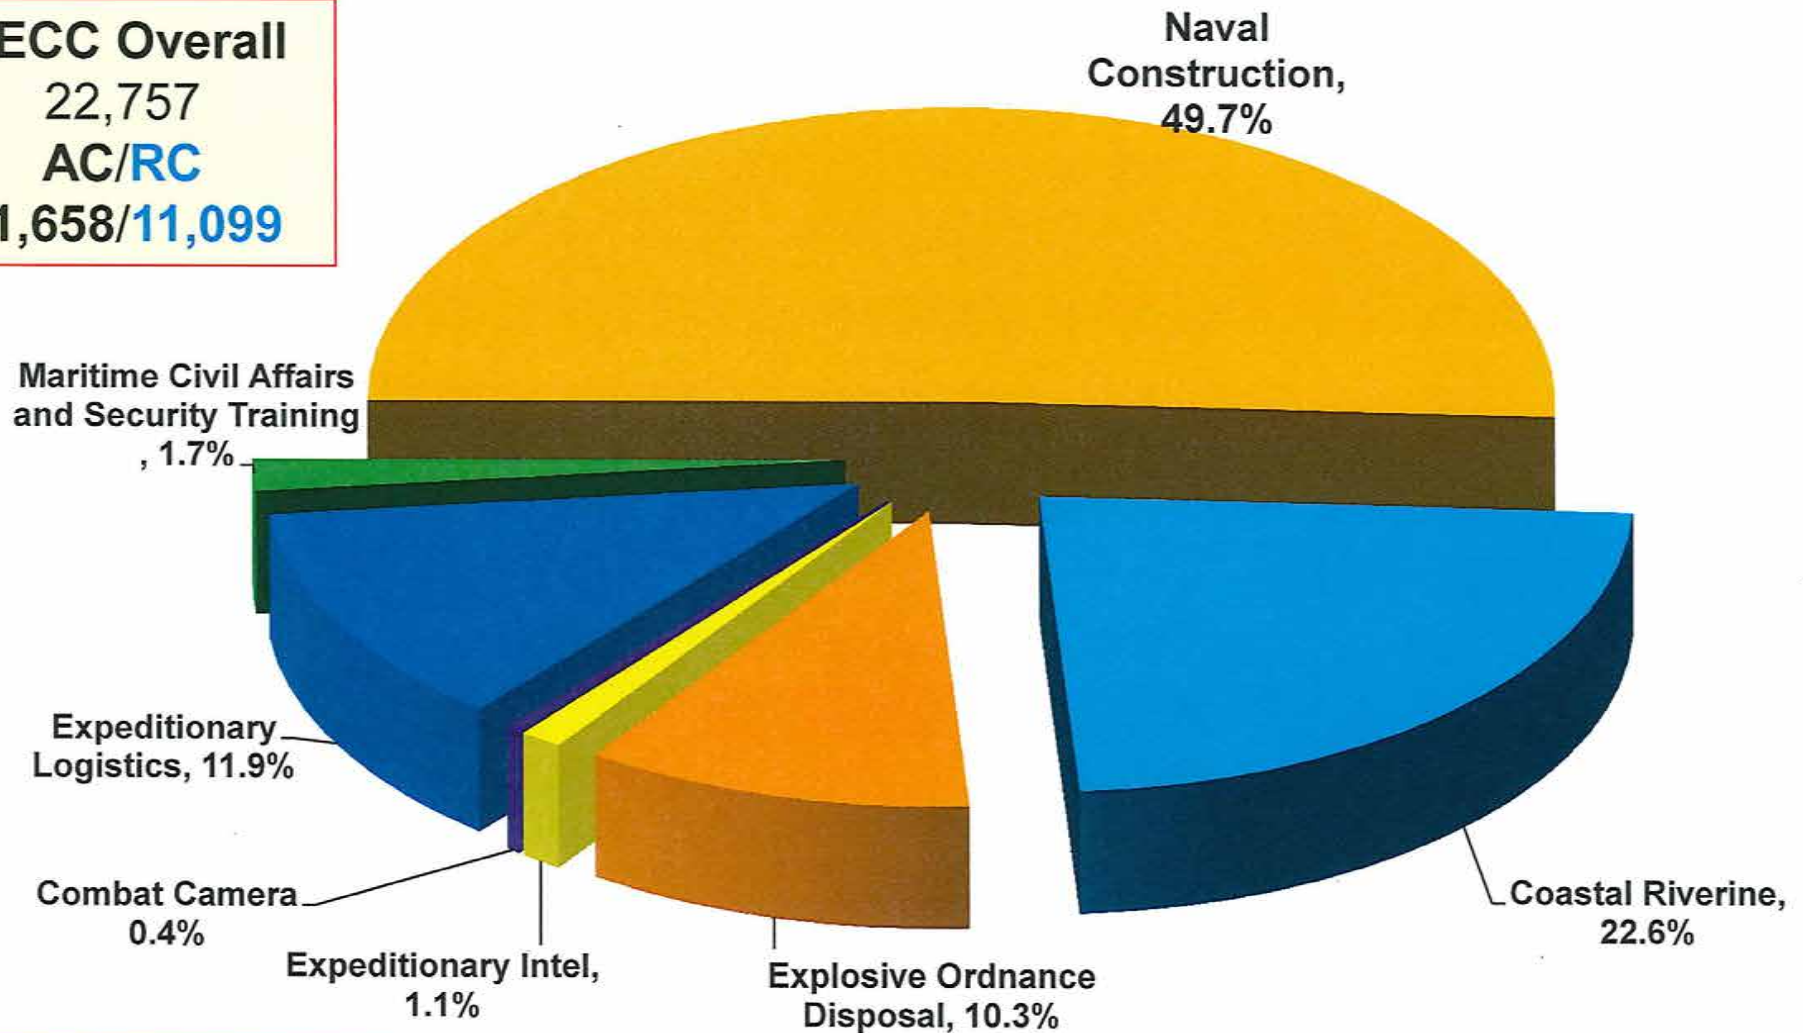

NECC Overall

22,757

AC/RC

11,658/11,099

Unique Warfighting Capabilities; 49 percent Reserve Sailors

NECC Force Mission Areas

Coastal Riverine Force (CRF)

Personnel: 2,668 Active and 2,483 Reserve

- Core Competencies can be applied across the range of military operations:
 - Port Security / Harbor Defense
 - High Value Unit Escort
 - Maritime Infrastructure Protection
 - Entry Control Point (Afloat/Ashore)
 - Sea Point of Debarkation/Air Point of Debarkation Protection
 - Intelligence Surveillance and Reconnaissance Patrols
 - Visit Board Search and Seizure Level II (Organic force / delivery)

48% RC

52% AC

UNCLASSIFIED

Assuring Security Throughout the Littorals

NECC Force Mission Areas

Explosive Ordnance Disposal (EOD)

Personnel: 2,351 Active and 0 Reserve

- Highly trained, skilled technicians who are experts in explosives, diving and parachuting
 - Only maritime expeditionary EOD and Mobile Diving Salvage (MDS) capability within Department of Defense
 - Render safe conventional, improvised, chemical, biological, nuclear ordnance demolition or disposal of hazardous munitions, pyrotechnics, and retrograde explosives
 - Underwater Salvage and Recovery operations using SCUBA and Surface Supplied Air or Mixed Gas
 - Underwater object recovery and harbor clearance
 - Support military and civilian law enforcement agencies
 - Routinely operate with Interagency partners including Department of State, Department of Homeland Security, U.S. Secret Service, U.S. Customs Office, and FBI

0% RC

100% AC

UNCLASS/

Enabling Safe and Secure Access

NECC Force Mission Areas

Naval Construction Force (NCF)

Personnel: 5,585 Active and 5,727 Reserve

- Provide a wide variety of military construction and humanitarian efforts in times of peace or war:
 - Constructing border outposts, expeditionary camps
 - Constructing and repairing aircraft runways and parking aprons
 - Erecting bridges and constructing roads
 - Constructing munitions storage areas and large scale camp sites
 - Building detention facilities
 - Repairing piers and wharves
 - Renovating schools and municipal facilities
 - Providing community outreach centers, medical clinics, community clean-up

UNCLASSIFIED

We Build, We Fight

NECC Force Mission Areas

Expeditionary Combat Camera (COMCAM)

Personnel: 49 Active and 39 Reserve

- Operations support
 - Counterterrorism
 - Psychological operations
 - Information operations
- Battle damage assessment
 - Force protection
 - Public affairs
- Medical support
- Investigative support

UNCLASSIFIED

NECC Force Mission Areas

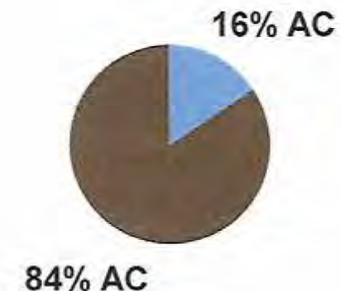

Navy Expeditionary Logistics Support Group (NAVELSG)

Personnel: 423 Active and 2,290 Reserve

- Operational Reserve Command
- Offer the only break-bulk cargo capability in the DoD
- Delivers logistics capabilities with active and mobilization-ready Navy Reserve Force Sailors and equipment to theater commanders in support of the military strategy
- Provides support for:
 - Port and air cargo handling missions
 - Custom inspections
 - Contingency contracting
 - Fuels distribution
 - Freight terminal and warehouse operations
 - Postal services
 - Ordnance reporting and handling
 - Expeditionary communications

UNCLASS

Bringing the Fight to the Fight

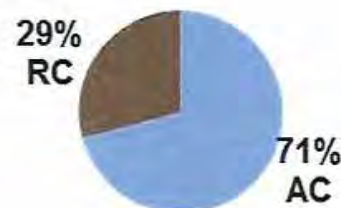

NECC Force Mission Areas

Navy Expeditionary Intelligence Command (NEIC)

Personnel: 184 Active and 76 Reserve

- Provides flexible, capable and ready maritime expeditionary intelligence forces.
 - Tactical Ground Human Intelligence (HUMINT)
 - Tactical Maritime HUMINT and Intelligence Exploitation
 - Expeditionary Intelligence Analysis
 - Tactical Electronic Warfare/Information Operations

UNCLASSIFIED

Providing Intelligence Support in the Joint Battle Space on Land and Sea

NECC Force Mission Areas

Maritime Civil Affairs and Security Training Command (MCAST)

Personnel: 89 Active and 302 Reserve

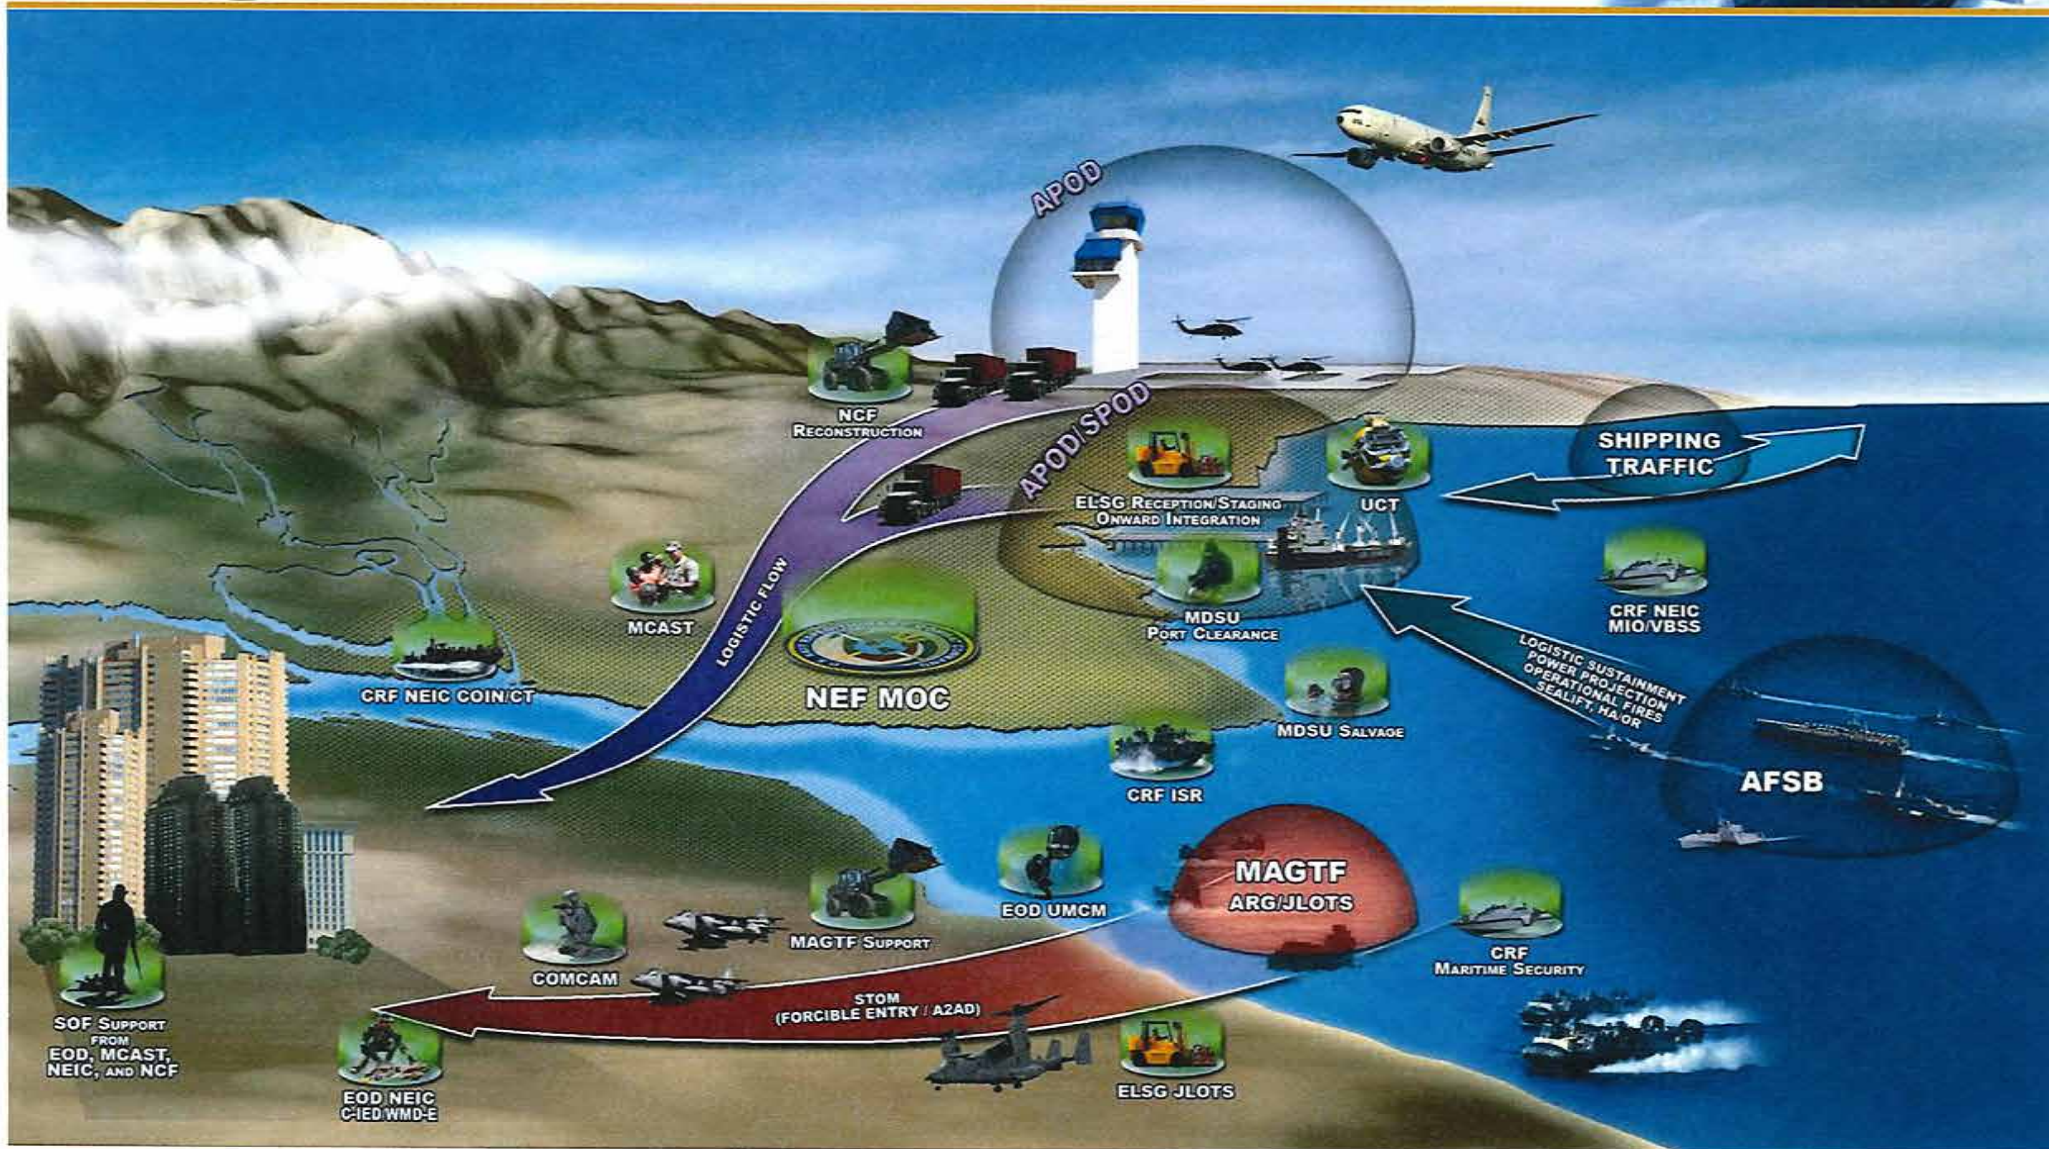

- Maritime Civil Affairs Capabilities:
 - Port Operations
 - Harbor & Channel Maintenance/Construction
 - Maritime & Fisheries Resources and Management
 - International Law/Law of the Sea
 - Public Health
- Security Force Assistance (SFA) Mobile Training Teams:
 - Courses of Instruction:
 - Small Boat Operations and Tactics, Maritime Combat Operations, Weapon Handling, Marine Engine Maintenance, Anti-Terrorism/Force Protection, Expeditionary Security, and Professional Development.

Security, Partnership, Stability “People Are Our Platform”

NECC Deployed Forces

AFGHANISTAN

NCF: NMCB 28

EOD: EOD PLT 3-8-1
EOD PLT 6-4-1
EOD PLT 12-6-1

EOD PLT 2-2-2

NEIC: IET 14

NAVELSG: NCHB 5
5 NELR

Accounting for approximately 6% of Navy manpower, NECC has endured approximately 18% of Navy combat casualties from OIF/OEF.

Defense Support of Civil Authorities Humanitarian Assistance / Disaster Relief

• Defense Support of Civil Authorities (DSCA)

- Designated Navy Lead Element, CTF 86
- Liaise with Civil Authorities to perform tasks in accordance with Stafford Act
- Activities: Minnesota Bridge Collapse, Hurricane Sandy Response, Exercise Ardent Sentry

• Humanitarian Assistance/Disaster Relief (HA/DR)

- Adaptive Force Package task organized to support designated operations
- Activities: Hurricane Irene-Haiti

NECC MILCON Projects

JEB Little Creek – Fort Story

■ P-354, EODGRU-2 Consolidated Operations and Logistics Facilities

- NECC's #1 MILCON priority project → current estimate: \$39.3M
- Addresses capacity issues due to platoon growth, relocation of EODMU 6 from Charleston, SC to JEB LC-FS, and stand-up of Expeditionary Support Unit (ESU)
- Addresses current facility condition issues and facilitates consolidation of EOD east coast units at JEB LC-FS
 - Constructs two MU operations facilities
 - Renovates existing HQ facility
 - Constructs supply/storage logistics facility for ESU-2
 - Provides needed site improvements (i.e. – parking, utilities, etc.)
- Project includes demolition of antiquated facility, elimination of current trailers, and incorporates energy efficient LEED design criteria
- Current status - Site approval and NEPA planning completed; Design authority granted

NECC MILCON Projects

Naval Base Guam

■ P-491, EODMU-5 Consolidated Operations and Logistics Facilities

- NECC's #2 MILCON priority project → current estimate: \$36.8M
- Provides facilities to accommodate platoon growth
 - Current facilities assigned in 1992 to support 4 platoons (60 personnel).
Currently 11 platoons with additional equipment storage requirements
- Addresses current facility condition issues, and enhances operational functionality
 - Constructs Mobile Unit operations facility
 - Constructs armory facility
 - Renovates existing platoon spaces
 - Provides needed site improvements (i.e. – paving, parking, utilities, etc.)
- Project includes demolition of antiquated facility, elimination of current trailers, and incorporates energy efficient LEED design criteria
- Current status - Awaiting preliminary design authority

NECC MILCON Projects

Naval Base Coronado

- **P-877, EODGRU-1 Consolidated Operations and Logistics Facilities**
 - NECC's #3 MILCON priority project → current estimate: \$30.1M
 - Provides facilities to accommodate platoon growth and stand-up of ESU
 - Addresses current facility condition issues, and facilitates consolidation of EOD west coast units at NBC
 - Constructs two Mobile Unit operations facilities
 - Constructs supply/storage logistics facility for ESU-2
 - Provides needed site improvements (i.e. – paving, parking, utilities)
 - Project includes demolition of 11 antiquated facilities, elimination of current trailers, and incorporates energy efficient LEED design criteria
 - Current status - Awaiting preliminary design authority

NECC MILCON Projects

Naval Base Ventura County, Port Hueneme

■ P-491, NCG-1 Combat Vehicle Maintenance Facility

- NECC's #4 MILCON priority project → current estimate: \$27.5M
- Constructs single maintenance facility, consolidating maintenance in 15 dispersed and deteriorating structures
- Project includes demolition of antiquated facilities resulting in net footprint reduction, and incorporates energy efficient LEED design criteria
- Current status - Awaiting preliminary design authority

NECC MILCON Projects

Naval Station Rota

- **P-620, CTF-68 Expeditionary Maintenance Facility**
 - NECC's #5 MILCON priority project → current estimate: \$18.6M
 - Constructs maintenance facility consolidating maintenance for all CTF-68 units (EOD, NCF, CRF) to replace existing, circa 1960, Quonset huts
 - Project supports TRANSCOM airlift mission and support to SOCOM
 - Addresses existing structural and fire protection deficiencies
 - Project includes demolition of antiquated facilities, and incorporates energy efficient LEED design criteria
 - Current status - Awaiting preliminary design authority

NECC MILCON Projects

JEB Little Creek – Fort Story

▪ P-871, EODTEU-2 Paraloft at Fort Story

- NECC's #6 MILCON priority project → current estimate: \$14M
- Provides Joint use facilities to accommodate increased training requirements for Navy EOD and Army/Navy Special Operating Forces.
 - Constructs new paraloft facility at Fort Story to address existing maintenance, repair, packing, inspection, classroom training, and storage capacity deficits
 - Project includes renovations to existing facilities for admin and training functions
 - Eliminates need for temporary re-locatable facilities
- Current status
 - Awaiting preliminary design authority

•The Existing Paraloft Working Area

NECC Resiliency Program

A balance between Mission, Family, and Warfighter is critical to readiness
To operationalize resiliency it must be trained, exercised and assessed.

**Family
Readiness
Program**

**Warfighter
Resiliency**

**Wellness
Council**

**embedded
Mental Health
Program
(eMHP)**

Fleet Response Training Plan

**TASK FORCE RESILIENT identified NECC's Resiliency Program as
"A Proof of Concept for Navy Resiliency efforts"**

embedded Mental Health Program (eMHP)

What: Mental health providers embedded with warfighters at the Ech IV/V level

Why: Maximize psychological readiness and mitigate stress injuries

Strategy: overcome stigma and other barriers to provide support to Sailors who would not otherwise self-refer

- 63% of self-referrals have never been to a counselor
- 53% display full PTSD
- 70+% with significant post traumatic stress symptoms

Sailor Direct Services

- Counseling
- Check-ups
- Resilience building prevention activities in development

Leadership Advisement

- Combat & Operational Stress First Aid responsibilities
- Consultation to medical providers

Current State

- 1 Program Manager
- 10 Providers
- 4 Support personnel
(necessary to optimize provider work schedule)
- FTE waiver for current staff has been requested

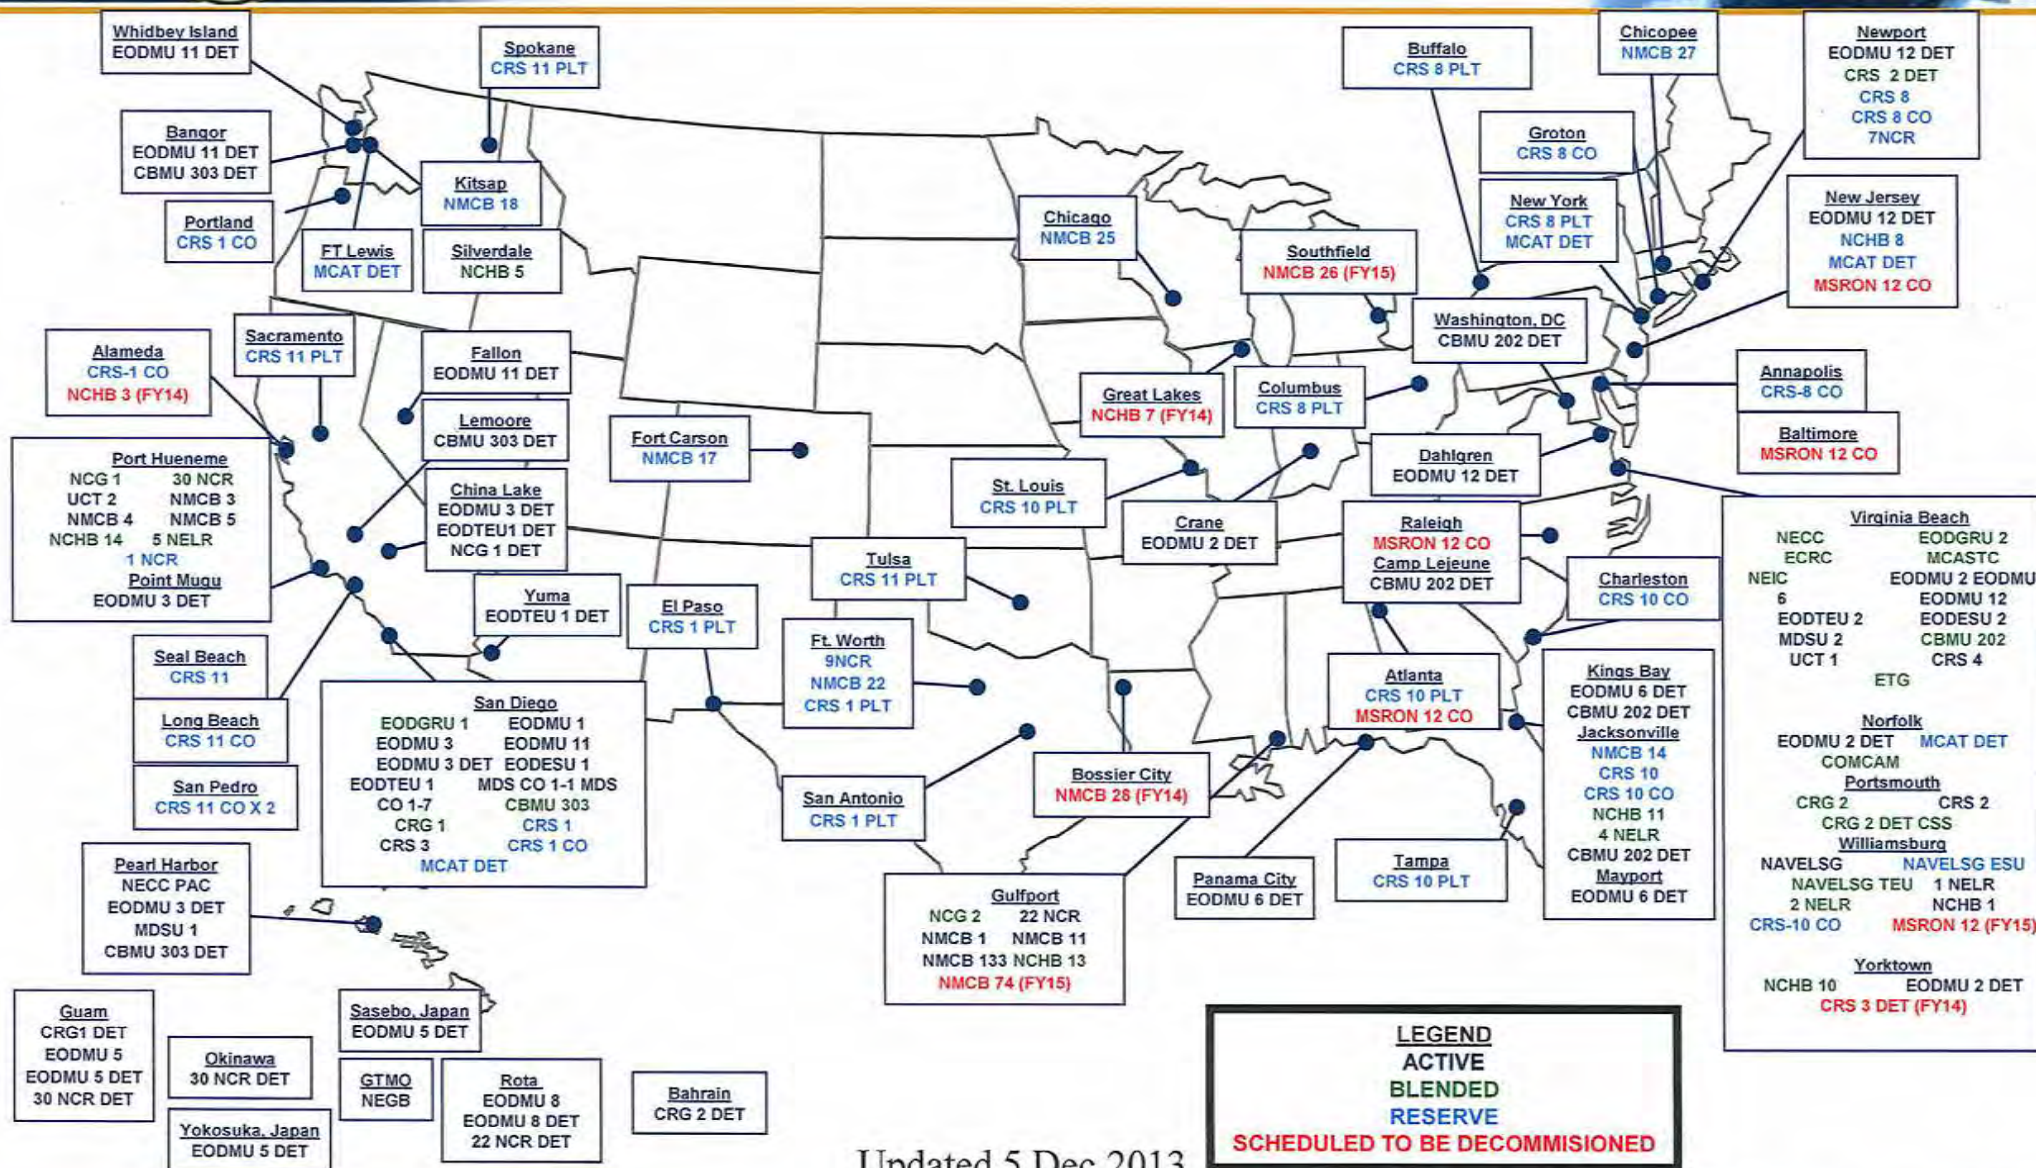

Sailors in counseling report value of the program in as few as 3 sessions;
99% would recommend the program to a friend in need

Discussion

NECC

Adaptive, Responsive, Expeditionary

NECC Navy Integrated Exercise (NIEX)

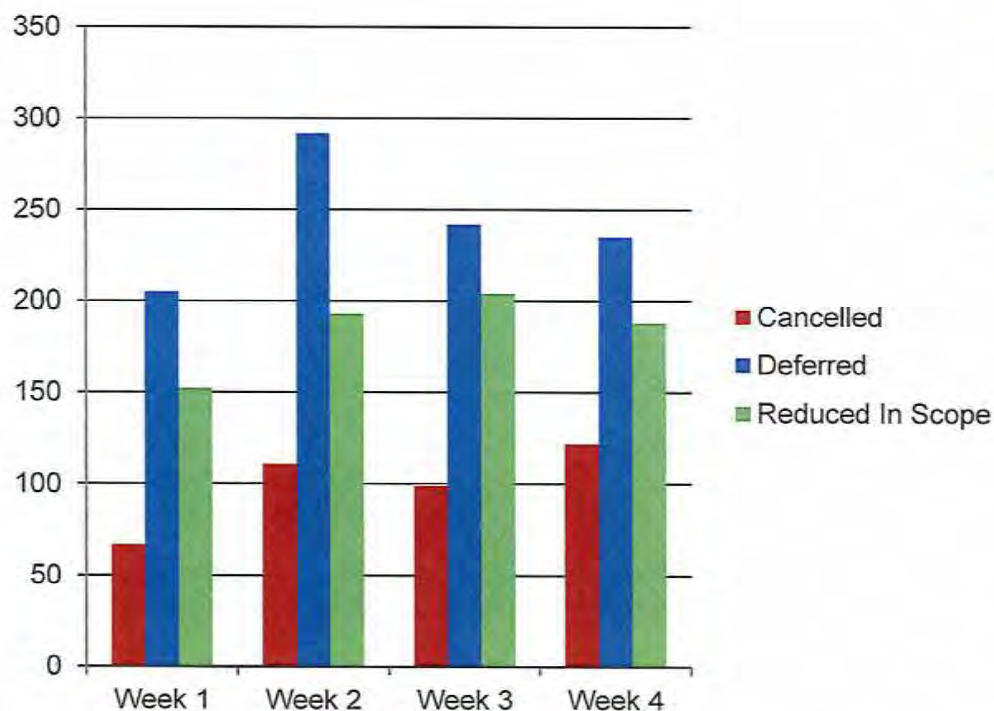

NECC Furlough Impacts

Weekly Reported Event Impacts* Weeks 1-4

*The reporting procedures do not distinguish between minor events such as a phone call, and large events, such as a training exercise. In addition, there is analysis underway to determine duplication of event reporting due to multiple personnel reporting on the same event.

• *Personnel Impact:*

–3 Civilian Personnel have left for other government positions not subject to furlough

• *Operational Impacts:*

–Furlough impacts at NAVSUP have caused inability to execute contract support for maintenance, and other functions

–Deferred Maintenance

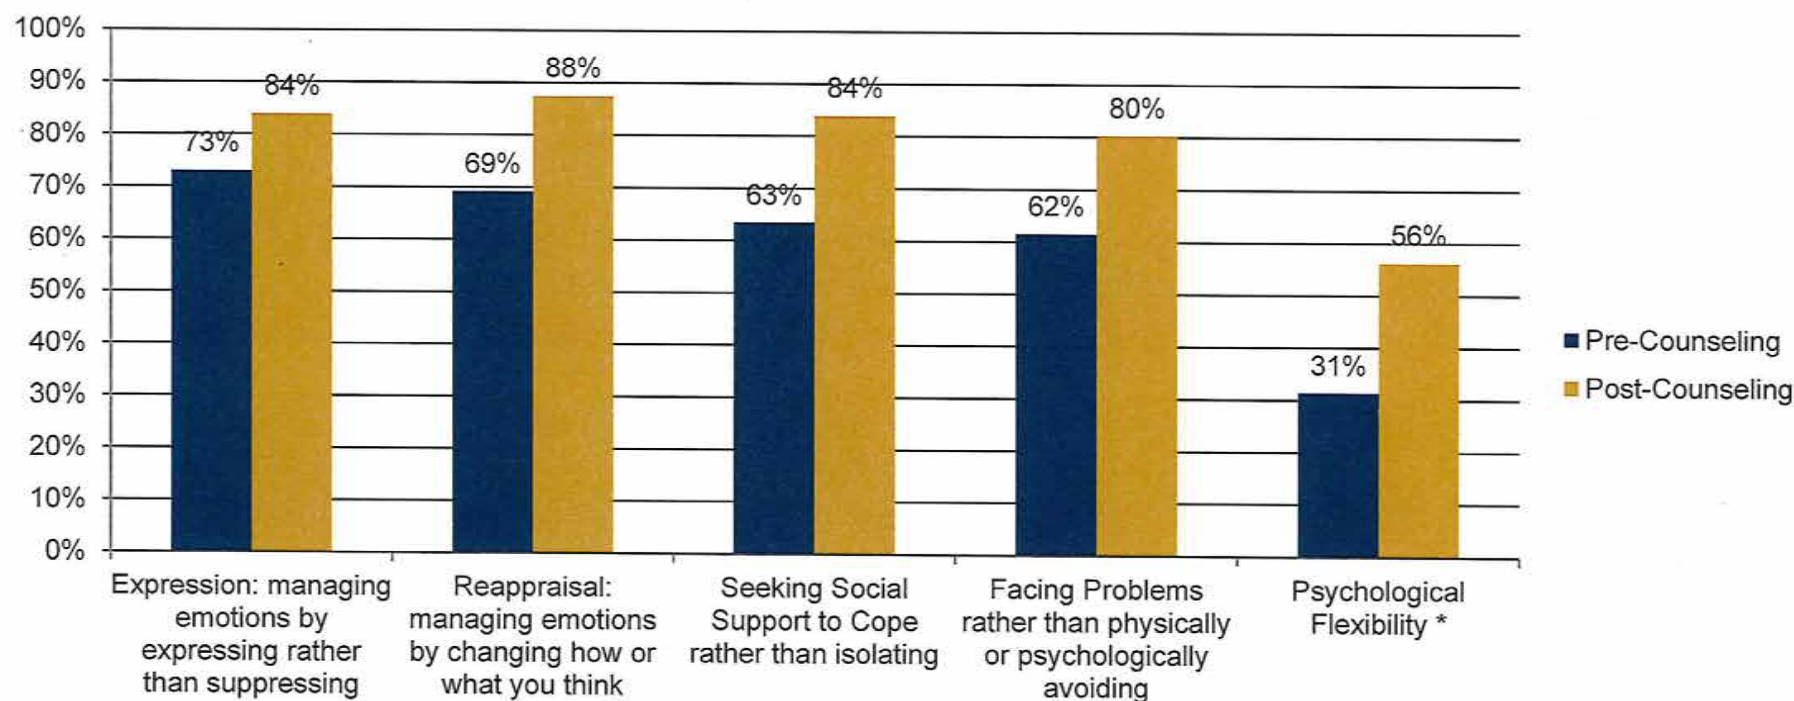

- NAVELSG loss of 72 man-hours/wk of CESE maintenance resulting in backlog and degraded equipment
- SWRMC manning impacting ability to conduct intermediate and depot level maintenance for CRG1 craft creating a bow-wave into FY14.

Improvement Seen in as Few as Four Sessions

eMHP counseling increases positive coping and psychological flexibility * in EOD and NCF using the 2nd generation eMHP treatment metrics

* Psychological Flexibility involves accepting emotional experiences rather than avoiding. **How** people relate to their thoughts and feelings (whether negative OR positive) is the metric rather than the **degree of negativity**. Examples include: those who are flexible can tolerate high levels of distress vs. those who are inflexible often cope by suppressing thoughts. Note: Percentages total more than 100% since SM often develop significant strengths in more than one area.
